## Understanding the School Report

- **Key.** ✓ correct response, ✗ incorrect response.
- **Strand.** Each test assesses a number of skill areas, these are called strands.
- **IBT Scale Scores.**
  - o There is an IBT Scale Score for each subject.
  - o The achievement of a student is based on the test score for a subject, which is converted to a location on the IBT Scale and expressed as a Scale Score.
  - o Within each subject, student achievement expressed as scale scores allows for direct comparisons of students within grades, between grades and also over time.
- **Percentile.** The percentile indicates the percentage of students in a group who obtained the same score or lower. This provides a precise picture of a student's standing relative to other students who participated in IBT tests for a subject.
- **School.** All students at the school who have participated in IBT tests for a subject.

## Understanding the School Report

- **Key.** ✓ correct response, ✗ incorrect response.
- **Strand.** Each test assesses a number of skill areas, these are called strands.
- **IBT Scale Scores.**
  - o There is an IBT Scale Score for each subject.
  - o The achievement of a student is based on the test score for a subject, which is converted to a location on the IBT Scale and expressed as a Scale Score.
  - o Within each subject, student achievement expressed as scale scores allows for direct comparisons of students within grades, between grades and also over time.
- **Percentile.** The percentile indicates the percentage of students in a group who obtained the same score or lower. This provides a precise picture of a student's standing relative to other students who participated in IBT tests for a subject.
- **School.** All students at the school who have participated in IBT tests for a subject.
- **Country / Region.** All students in the country / region who have participated in IBT tests for a subject.
